PATENTS.

AMERICAN AND FOREIGN OFFICE,
And Agency of the U. S. Patent Office, Washington,
22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fifteen year's practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

TUESDAY, FEBRUARY 22, 1848.

New-York for Henry Clay.

On Thursday evening last, 17th, the Whigs of New York City held a monster meeting at Castle Garden for the purpose of giving an expression of their wishes for the nomination of HENRY CLAY for the Presidency. It was a meeting demonstrating the fact that of all men Mr CLAY is the first choice of the Whigs of the great metropolis and undoubtedly of the Empire State.

It is estimated that at least ten thousand persons were present at the meeting at one time during the evening. Mr P Hone stated in opening the meeting, that "they had come together to express their preference for HENRY CLAY as their candidate for the Presidency. There is no opposition to this in the Whig party except by the friends of another candidate Gen Taylor, to whom you are all willing to award the praise of a gallant soldier and an honest man. He never heard a Whig say otherwise—never heard a disparaging word of Gen Taylor. We object to him because we think we have a better man. If it should be considered otherwise we all stand pledged that when fairly represented by a proper Convention and a proper organization, if the decision should be otherwise, we will stand by it. [Cheers.] If that decision should be for our candidate so much the better—but if for General Taylor we are pledged in advance, to support him."

An eloquent address was adopted and the following resolutions passed:

Whereas the near approach of the time when the People of the United States will be called upon to elect a new President renders it proper that they should meet in their primary assemblies to confer with each other, compare opinions and preferences, and give utterance to their honest opinions. Therefore it is

Resolved That we, the Whigs of the City of New York, regard HENRY CLAY of Kentucky as the most eminent champion of our cherished principles, we confide in him as a Statesman, admire him as a Patriot, and love him as a Man, and believe him fittest of all men to lead the Whig army in the great contest now swiftly approaching.

Resolved That the public life and services of Henry Clay during the last half century (and we trust not yet near their termination) afford to the poor and friendless youth of America most cheering encouragement and striking example, and we point the young men of our land to that life and to the universal respect and admiration with which our great Leader is now regarded as affording the fullest evidence that Virtue and Talent, although they may not always ensure ... raise to the most exalted station, are yet certain to be rewarded with that which gives to Success its highest zest, and to Station its only just value.

Resolved That in War and in Peace, in Congress and in the Cabinet, as a debater and a diplomatist Henry Clay has for the last thirty years stood unsurpassed among the Statesmen of America and we cannot understand how any man should be willing to vote for any Whig as a Whig, yet be unwilling to vote for Henry Clay.

Resolved That the Whigs of New York are neither afraid nor ashamed to avow fully the principles and objects for which they have so arduously and untiringly struggled, and while they desire success in the coming contest, they would value it mainly as a reward of ... popular intelligence with regard to Public Policy, and the science of Government, and as affording their opportunity to give practical effect to their cherished aims and convictions.

Resolved That the eloquent and ardent sympathies of Henry Clay in behalf of the great cause of Human Liberty throughout the world—his early and powerfully ... advocacy of the independence of Greece and of the South American Republics—his thrilling appeals to his countrymen in behalf of the starving people of unhappy Ireland, and the well known generosity and magnanimity of his nature give him strong claims on the affection and gratitude of our fellow citizens who have fled from despotism and want in Europe to liberty and plenty in America, and we have reason to believe that those claims will not be disregarded in the coming contest.

Resolved That we regard the late Speech of Mr Clay at Lexington, in exposition of the causes, character, and objects of the present War on Mexico as among the noblest and most patriotic efforts of the Great and Good Man, who "would rather be right than be President."

Resolved That the solemn fact that the honest expression ... adverse to the justice and to the further prosecution of this war ... light ... with the preservation of Human Freedom and we earnestly trust that this Country will never engage in another War of invasion and conquest.

Resolved, That while Henry Clay is emphatically our choice for next President, ... the Union and we ... all our powers to secure his nomination ... the choice of the Whig National Convention and ask ... that the friends of other Whig candidates shall meet us in a kindred spirit.

Resolved That we earnestly request the Whigs of this State ... the several cities ... to express their preference for a candidate for the Presidency, and we recommend that in the selection of Delegates to the National Convention, the respective Congressional Districts should give a decided expression of their preference.

Gen Taylor and Mr. Clay.

The Washington correspondent of the Philadelphia North American (Independent) insists upon it that General Taylor has written a letter saying that in the event of Mr Clay or any other Whig being selected as the candidate of the party for the Presidency, he would not permit his name to enter the canvass.

He says:

So far as Mr Clay is referred to in my original statement, I derived it ... own lips. So far as General Taylor is referred to, I derived the authority from his *own hand and seal*. There are *letters* ... but *letters*—confirming every syllable I had directed and a great deal more.

I am not at liberty to refer more specifically to the correspondence, because confidence restrains me and enjoins the persons written to. ... effort on the part of the President's paper and its satellites, to produce a false impression upon the public mind concerning an alleged rivalry between the friends of Mr Clay and Gen Taylor, and I felt it to be an imperative duty to state the truth in the general terms which I used, to correct that injurious misrepresentation.

I now pledge myself in the most positive manner to enable Mr Greely to satisfy his own senses of this evidence within forty-eight hours, if he will visit Washington, or else to take the penalty which should follow in such a case. I mean this in the broadest sense that he may think proper to construe it and I care not a fig for any assertion to the contrary.

I repeat that I may not be misunderstood, that General Taylor has written, saying that in the event of Mr Clay or any other whig being selected as the candidate of the party, he would not permit his name to enter the canvass.—This is plain and distinct, and admits of no subterfuge.

☞ The lecture before the Lyceum this evening will be delivered by Gov. Kent, upon the subject of the administration at Washington.

Mr. Webster's Argument.

We commence to day the publication, in our columns, of the clear and beautiful exposition of Mr Webster, of the Principles on which the American System of Popular Liberty rests. It is a timely and highly valuable document and should be attentively read and fully considered by the people. The old men will find in it much of which their experience affirms, while the young men can gather from it a vast amount of political information of the highest value.

We have many claims upon our columns at this time but we could not bring ourselves to let this document pass without an insertion.—It is one of the great orator's best, because most needed, and most useful addresses to the American People.

Temperance Meeting this Day.

There has not been any particular excess in the matter of temperance efforts among our people during the year past, and all are therefore invited to give their attendance to day at the City Hall, on the occasion of the Annual Meeting of the Penobscot County Washington Total Abstinence Society. It is expected that in the afternoon there will be a general conference of all friends on the subject of Temperance. The Agent of the Society, Rev Mr Hill, and other eloquent and large hearted friends of the cause will be present.

HON. DANIEL WEBSTER'S ARGUMENT

Before the Supreme Court of the United States, January 27 1848,

AGAINST THE VALIDITY OF THE "PEOPLE'S CONSTITUTION" IN RHODE ISLAND.

Mr WEBSTER said there was something novel and extraordinary in the case now before the Court. It is not such an one as is usually presented, all will admit, for judicial consideration.

It is well known that in the years 1841 and 1842 political agitation existed in Rhode Island. Some of the citizens undertook to form a new constitution of government, beginning their proceedings towards that end by meetings of the people, held without authority of law, and conducting these proceedings through such forms as led them in 1842 to say they had established a constitution and a form of government. The previously existing and then existing government of Rhode Island treated these proceedings as nugatory, so far as they went to establish a new constitution, and as criminal so far as they proposed to confer authority upon any persons to interfere with the acts of the existing government.

All will remember that the state of things approached if not actual conflict between the two arms at least the perilous edge of battle. Arms were resorted to, force was used and greater force threatened.

In June 1842 this agitation subsided. The new government as it called itself disappeared from the scene of action. The former government (the Charter government as it was sometimes styled) re-assumed undisputed control, went on its ordinary course and the peace of the State was restored.

But the past had been too serious to be forgotten. The Legislature of the State had, at an early stage of the troubles, found it necessary to pass special laws for the punishment of the persons concerned in these proceedings. It defined the crime of treason against the State, and smaller offences, and declared martial law. Gov. King proclaimed the existence of treason and rebellion in the State, and declared the State under martial law.

This having been done, and the ephemeral government of Mr Dorr having disappeared, the Grand Jury of the State found indictments against several persons ... the peace of the State, and among others against Dorr for treason. The indictment against Dorr came on in the Supreme Court of R. I. in 1844, before a tribunal admitted on all hands to be the legal judicature of the State. He was tried by a jury of Rhode Island above all objection and after all challenge. By that jury, under the instructions of the Court, he was convicted of treason and sentenced to imprisonment for life.

Now an action is brought in Courts of the U. S. and before your honors by appeal, in which it is attempted to prove that the characters of this drama have been oddly and wrongly cast—that there has been a great mistake in the Courts of Rhode Island. They say that Mr Dorr instead of being a traitor or an insurrectionist, was the real Governor of the State at the time;—that the force used by him was exercised in defence of the constitution and laws and that ... he who opposed the constituted authorities was not Mr Dorr, but Gov King, and that it was he who should have been indicted and tried. This is rather an important mistake, if there be one. "Change places and, *handy dandy*, which is the Justice and which the thief?" So to our learned opponent say, ... "change places and *handy dandy* which is the Governor and which the rebel?"

The aspect of the case therefore is, as I have said, novel. It may perhaps give variety and variety to ordinary observations. It may relieve the drudgery of perusing briefs, demurrers and pleas in bar, bills in equity and answers, and introduce topics which give sprightliness and freshness and novelty to courts of law.

It may be impossible, it may be and I suppose it to be wholly impossible, that you should take judicial notice of the questions which the plaintiff has presented to the Court; but while I do not ... it a matter of regret that the cause has come hither. ... and that the case involves the ... discussion of what are the true principles of government in our American System of public Liberty. This is very right. These questions ... and harm can never come from their discussion especially when such discussion is addressed to reason and not to passion—when it is had before magistrates and not ... heretofore excited masses out of doors. I agree entirely that the case does raise considerations somewhat extensive of the true character of our American System of popular liberty, and although I am constrained to differ from the learned counsel who opened the case for the plaintiff in error on the principles and character of that American liberty—upon the characteristics of that American System on which charges of the Government and Constitution, if they become necessary, are to be made, yet I agree with him that this case does present them for consideration.

Now there are certain principles of public liberty which though they do not exist in all forms of government, exist nevertheless to some extent in different forms of government. The protection of life and property, the *habeas corpus*, trial by jury, the right of open trial—these are principles of public liberty existing in their best form in the republican institutions of this country, but to an extent ... existing in the constitution of England. Our American liberty, allow me to say, therefore has been inherited and ... Our ancestors brought to this continent all that was valuable, in their judgment, in the political institutions of England, and left behind them all that was without value or that was objectionable. During the colonial period our ancestors were closely connected with the colonial system, but they were Englishmen as well as colonists, and took an interest in whatever concerned the mother country, especially in all great questions of public liberty in that country. Therefore they took an interest in the revolution of 1688. The American colonists had suffered from the tyranny of James the II. Their charters had been wrested from them by mockeries of law, and by the corruption of judges in the city of London, and in no part of England was there more gratification or a more resolute feeling, when James abdicated and William came over, than in the American colonies. All know that Massachusetts immediately overthrew what had been done under the reign of James, and took possession of the colonial fort in the name of the new King.

When the United States separated from England by the declaration of 1776 they departed from the political maxims and examples of the mother country, and entered upon a course more exclusively American. From that day down, our institutions and our history relate to ourselves. Through the period of the declaration of Independence, of the Confederation, of the Convention, and the adoption of the Constitution, all these are records ... which our system of American Liberty is to be drawn.

From the Declaration of Independence, the governments of what had been Colonies before were adapted to their new condition. They no longer held allegiance to crowned heads. No tie bound them to England. The whole system became entirely popular, and all legislative and constitutional provisions had regard to this new peculiar American character which they assumed. Where the form of Government was already well enough they let it alone. Where it was necessary, they reformed it. What was valuable they retained, what was essential they added and so on. Through the whole proceeding, from '76 to the latest period, the whole course of American public acts, the whole progress of this American System, was marked by a peculiar conservatism. Their object was to do what was necessary, and no more, and to do that with the utmost temperance and prudence.

Now, without going into historical details at length let me state what I understand the American principles to be on which this System rests.

First and chief, no man makes a question that the People are the source of all political power. Government is instituted for their agents and servants. He who would argue against this, must argue without an adversary. And who thinks there is any peculiar merit in asserting a doctrine like that, in the midst of twenty millions of people, when nineteen millions, nine hundred and ninety-nine thousand, nine hundred and ninety-nine of them hold it as well as himself?

There is no other doctrine of government here, and no man imputes to other, and no man should claim for himself, any peculiar merit for asserting what every body knows to be true, and nobody denies. Why where else can we look but to the people for political power in a popular government? We have no hereditary Executive, no hereditary branch of the legislature, no inheritance of great masses of property, no system of entails, no long trusts, no long family settlements, no primogeniture. Every estate in the country, from the richest to the poorest, is divided among sons and daughters alike. Alienation is made as easy as possible; every where the transmissibility of property is made perfectly free; the whole system is arranged so as to produce, as far as unequal industry and enterprise render it possible, an universal equality among men, an equality of rights absolutely, and an equality of condition as far as the different characters of individuals will allow such equality to be produced. He who considers that there may be or is, ever has been, since the Declaration of Independence, any body who looks to any other source of power in this country but the People, so as to give them peculiar merit who claim loudest in its assertion, must be out of his mind even more than Don Quixotte was. His imagination was only perverted. He saw things not as they were. He saw windmills and took them to be armed men—knights on horseback. This was bad enough, but whoever says, or speaks as if he thought that any body looks to any other source of political power in this country but the people, must have a stronger and a wilder imagination, for he

"——gives to airy nothing
A local habitation and a name."

He "saws the air." He sees phantoms. Well then let all admit what none deny, that the only source of political power in this country is the people. Let us admit that they are *sovereign*, to ... they are so, that is to say, the aggregate community, the collected will of the people, is sovereign. I confess that I think Chief Justice Jay spoke rather paradoxically than philosophically when he said that his country exhibited the extraordinary spectacle of many sovereigns and no subjects. The people he said, are all sovereigns, and the peculiarity of the case is that they have no subjects, except a few colored persons. This must be rather fanciful. The aggregate community is sovereign but that is not the sovereignty which acts in the daily exercise of sovereign power. The people cannot act daily as the people. They must establish a government and invest it with so much of sovereign power as the case requires—and this sovereign power being delegated and placed in the hands of the government, that government becomes what is popularly called the State. I like the old fashioned way of stating things as they are, and this is the true idea of a State. It is an organized government representing the collected will of the people, so far as they see fit to invest that government with power. And, in that respect, it is true that though *that* government possesses sovereign power, it does not possess *all* sovereign power, and so the State governments, though sovereign in some respects, are not ... Nor could it be shown that the powers of both so delegated, embrace the whole range of what might be called sovereign power. We usually speak of States as sovereign States. I do not object. But the Constitution never so styles them nor does the Constitution speak of the government here, as the *general* or the *federal* government. It calls them the United States, and the government, the government of the United States, and it calls the State Governments State Governments. Still the fact is undeniably so—legislation is a sovereign power and is exercised by organized governments to a certain extent and by the States according to the forms which they have themselves established.

Well, then, having agreed that all power is originally from the people, that they can confer as much of it as they please, the next principle is, that as the exercise of legislative power, and the other powers of government by themselves is impracticable, they must be exercised by REPRESENTATIVES of the People, and what distinguishes the American System as much as anything ... from any political system of ancient or modern times, is the marvellous ... of the representative system. It has with us, allow me to say, a somewhat different origin from the representation of the Commons in England, though that has been worked up to some resemblance of our own system. The representative system in England originated not in any supposed rights of the people themselves, but in the necessities and commands of the crown. At first, knights and burgesses were summoned to a parliament called by the King, often against their will. Many remonstrances were presented against sending up these representatives; the charge of paying them was felt to be burdensome by the people. But the King wished their counsel and advice and perhaps the presence of the popular body, to enable him to make greater headway against the feudal barons in the aristocratic and hereditary branch of the legislature. In process of time these knights and burgesses assumed more and more a popular character, and became the guardians of popular rights.

The people through them obtained protection against the encroachments of the crown and the aristocracy, till in our day they are understood to be the Representatives of the People charged with the protection of the rights of the people. With us it was always just so. Representation has always been this—The power is with the people, but they cannot exercise it in masses or *per capita*; they can only exercise it by their representatives. The whole system with us has been popular from the beginning.

Well, the basis of this representation is suffrage. The right to choose representatives is every man's part in the exercise of sovereign power—to have a voice in it if he has the proper qualifications, that is the fundamental exercise of political power by every elector. That is the beginning. That is the mode in which power emanates from its source and gets into the hands of Conventions, Legislatures, Courts of Law, and the Chair of the Executive. It begins in Suffrage. Suffrage is the delegation of the power of an individual to some agent.

If this be so, then follow two other great principles of the American System.

1 The first is, that the Right of Suffrage shall be guarded, protected, secured against force and against fraud, and,

2 The second is, that its exercise shall be prescribed by previous law; its qualifications shall be prescribed by previous law,—the time and place of its exercise shall be prescribed by previous law;—the manner of its exercise,—under whose supervision,—always sworn officers of the law,—is to be prescribed. And then again the results are to be certified to the central power by some certain rule, by some known public officers, in some clear and definite form, to the end that two things may be done,—*first*, that every man, entitled to vote, may vote; *second*, that his vote may be sent forward and counted, and so he may exercise his part of sovereignty in common with his fellow men.

In the exercise of political power through representatives we know nothing, we never have known any thing, but such an exercise as should be carried through the prescribed forms of law,—and when we depart from that, we shall wander as widely from the American track as the pole is from the track of the sun.

To be Continued.

Beginning to feel it.

The consequences of this monstrous blunder, and more monstrous crime, the Mexican War, are beginning to be felt, in the business community. The available resources of the country have been drawn off and used up to carry on a war which can bring only in return national bankruptcy and dishonor—and happy will it be if national destruction do not follow in the train of evils which must flow from this most foolish and wicked of wars. Already are the wheels of enterprise clogged—failures are beginning to occur among us, and the destroying tornado of a money crisis seems about to burst upon the community. As we feel the severity of the blow, and see the prosperity of the country laid prostrate, let the people candidly look at the sources of this evil, and let no insane party hue and cry close their ears and their hearts to the admonition and rebuke these events bring with them. No nation ever yet set justice and right at defiance, and escaped retribution. *Independent Democrat.*

Standing armies have ever proved fatal in the end to freedom. Where they have flourished, it has failed. Freemen need no armed surveillance. Tyrants, or a tyrannical policy, alone make the necessity for force. Liberty is law. Unequal liberties are the cause of standing armies. Force and law are incompatible and a contradiction of terms.

☞ DR. A. ANGIER MANN, of Norridgewock, the eccentric and highly successful *Physician*, gives notice in his "Family Physician" that he shall this week be at the New-England House in this city.

ONE WORD TO THE SEDENTARY.—Those who labor within doors are compelled to breathe an impure atmosphere which is wholly unfit for the proper expansion of the lungs, and, owing to want of exercise, the bowels become constipated, the pores of the skin closed, and indeed all the functions of the body become deranged—hence proceed asthma, cough, pains in the breast and side, palpitation of the heart, rheumatic pains in various parts of the body, giddiness, and a variety of other distressing complaints common to those of sedentary habits. *Wright's Indian Vegetable Pills*, disperse all these unpleasant symptoms. A single dose will in all cases give relief, and if repeated a few times, will most assuredly restore the body to health.

Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine. The safest course is to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

The genuine for sale by DAVID BUGBEE, who is the only authorized agent for Bangor.

New England Office—198 Tremont street, Boston.

[From the New England Washingtonian.]

We take pleasure in transferring the following certificate of Mr Covert in favor of the curative properties of Wistar's Balsam of Wild Cherry to our columns. Mr Covert (of the firm of Covert & Dodge, vocalists) has been long and favorably known in this city as a vocalist of rare attainments. We have watched with painful anxiety his declining health from the disease of which he speaks, and have almost despaired of his recovery—yet we placed him in the category of incurables, but thanks to the virtues of Dr Wistar's Balsam, he is now, greatly to our surprise, enjoying most excellent health.—

Read the Certificate.

Boston, May 25th 1847.

Mr Seth W Fowle,

Dear Sir:—There are so many quack medicines at the present time and each one has more or less certificates from respectable individuals, that I have for some time had doubts of the propriety of giving an testimony in favor of your medicine. But being assured that I have been benefitted by its use and feeling satisfied that by giving in my testimony in regard to its medicinal qualities, I may perhaps be the means of saving some one similarly afflicted. I therefore cheerfully add my testimony in favor of the medicine that I know has done me great good. I have been afflicted with the *Bronchitis* for a number of years, and by the use of a couple of bottles of *WISTAR'S BALSAM OF WILD CHERRY* I am happy to say that I am almost free from the above troublesome disease.

If this should be the means of saving even one of my fellow beings from that troublesome and painful disease (Bronchitis) I shall be fully paid for my trouble in writing the above communication.

Respectfully yours,
E COVERT, Vocalist.

GET RID OF THAT GOITRE.

Many persons labor under the mistaken idea that Goitre (an enlargement on the throat, producing great deformity and often death from pressure on the wind pipe and large blood vessels) is incurable. This is a very great mistake. This disease as well as SCROFULA are eradicated from the system by that pleasant yet powerful medicine, JAYNE'S ALTERATIVE. It is as certain to cure when properly used, as that the sun gives light and heat. All is wanted is a fair trial of its virtues, and the tumor will begin to diminish in size, and gradually become smaller and smaller until it is entirely cured.

A PHYSICIAN'S OPINION OF DR. JAYNE'S EXPECTORANT.

Lowell Mass., Jan 27th, 1844.

Dr David Jayne—Dear Sir: I have used your medicine (so universally known by the name of "Jayne's Expectorant,") in my practice for a number of years, and can most truly say, that I have been more successful in the use of that as a mild, safe and thorough Expectorant than any of which I have ever used. It is the best, for the following obvious reasons. It does not (if taken in proper doses) occasion a disagreeable nausea. It does not weaken the lungs and prostrate the system, like most other Expectorants in common use, nor does it vitiate the appetite of the patient like other nauseating medicines, which have been used by the faculty. In a word, it is nearly or quite the thing which has been sought for by many of the faculty for ages gone by. I remain yours &c.

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph.

DEAR SIR—I have, myself almost no occasion for your inestimable Pills. I have used them say six years as occasion dictated and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness, and the vomiting of nauseous and slimy stools I am completely relieved. The multifarious symptoms of Dyspepsia, with which I was once too well acquainted, have so entirely passed away, that I hardly know what they were. Any use you can make of this, or a more full developement of my case, is at your service.

Except in an obstetric case your book (Family Physician) and Pills have been the only physician in my house for six years.

There are many of my friends around and more and more, who call for your Pills as a family medicine, and for chronic cases. Yours truly,

Horatio Waldo.

Kirkbride's Tattersall's, HEAVE POWDERS:

A SAFE SPEEDY AND PERMANENT CURE for *Heaves, Broken Wind, Chronic Cough, Colds,* and all diseases which depend upon inflammation of the mucous membrane in the lungs throat or head of the horse or affect the

Soundness of the Animal's Wind,

This remedy which has been used with such remarkable success in England is now offered to Horse owners in the United States as a positive specific for all such [illegible]. It is compounded of [illegible] powerful vegetable ingredients [illegible] it is enabled to [illegible] successfully with disease in the hardy constitution of the Horse, and at the same time is so tolerated to be perfectly safe and [illegible] by [illegible] cattle, and does not at all incommode the animal or deter him from any labor. The following is one among many proofs we have of its efficacy. It is from one of the best Farmers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive

New York, Nov 1 1847

Messrs A H Gough & Co

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse at livery in my stables, and that I was quite dubious of the wisdom of attempting to cure such a bad case as his was, and I did not quite believe there was any medicine better for his complaint than this. I had known the half [illegible] of using drugs [illegible] with Horses. But justice to you and your valuable remedy requires me to say that the single package cured the animal of as aggravated a case of Heaves as I ever saw, and he is now perfectly good. I believe the cure is a permanent one.

Respectfully, [illegible] PEARD, 102 Laurens st

Messrs A H Gough & Co—Gents I bought, about six weeks ago, a package of your Powders to administer to a favorite Horse who had been troubled with heaves for more than two years. His case was a very bad one, and so severe as to incapacitate him from half his usual labor, and I had resisted all the remedies ordinarily used for this disorder, then I [illegible] but to slightly [illegible] the return of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease and now his wind is as good as ever it was. It is a month since he has taken the Powders and I can warrant him sound.

Respectfully, GEO W DAVIS, Monroe, Middlesex Co, N J.

GREAT CONDITION MEDICINE

Besides their specific action upon the diseases of the lungs and windpipe the Tattersall's Heave Powders, from their peculiar properties, are found as efficacious in horses as they are proven to be in the human race for the removal of impurities of the blood and predisposition to disease. Many a fine [illegible] horse has been [illegible] and cured by a few doses of the Heave Powders, when thrown into the food. If it is given to the horse after a hard ride or exposure to cold and wet weather they are warranted to cure the worst cough in a few days, and will equally avail [illegible] the use of [illegible]. As a condition medicine they are unequalled especially when a slight [illegible] loss of appetite, [illegible] denote a derangement of the digestive functions, or the presence of bots and worms in the alimentary canal, or [illegible].

Messrs A H Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. [illegible] I believe they were all the cause of his cough [illegible] which he exhibited, for the package [illegible] entirely cured him [illegible] I fully recommend your Heave Powders as [illegible] well as [illegible]. Yours, SAM'L ROBERTS

East Hampstead L I, Oct 26, 1847

Highly Important to Farmers.

HAVING purchased the right to use BOMMER'S Method of making MANURE in all the towns in the County, not previously disposed of, west of Penobscot, and south of Piscataquis river, I am ready to sell the same, by towns or individual rights, as may best suit purchasers

When it is taken into consideration, that one ton of dry straw can, in the space of 17 days, be converted into from six to eight loads of rich unctuous manure fit for compost,—that green vegetables and turf, can be made into manure of equal value, in ten days—and that the high temperature produced by fermentation destroys all obnoxious seeds, this invaluable method may be fairly considered as forming a new era in Agriculture! That the foregoing results have been frequently realized by Bommer's process I am prepared to show by testimony from scientific and practical farmers in various sections of the country.

Single rights will be sold for the moderate price of four dollars, and the purchaser will be furnished (gratuitously) with a book describing the process of making the foregoing together with many other kinds of compost manures hitherto unknown in this part of the country. To those who purchase by towns, or for private companies, my terms will be as low as in any other section of the State.

Persons at a distance, by forwarding four dollars (post paid) will be promptly furnished with a single right and book as aforesaid.

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined designed to render them *more active*, and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a medicinal plant second to none of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofula Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are—Neuralgia, Piles, Affections of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor became familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventive.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general to whom it is known.

Prepared only by Dr, Stephen Cummings, and sold at wholesale and retail by Joshua Durgin & Co. No. 143 Middle street, and Edward Mason, No. 153 Middle street—only agents for Portland.

Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body. It is one of the very best Fall and Winter medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 20,000 of those were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
8000 cases of Consumption,

and thousands of cases of diseases of the blood, viz — Ulcers, Erysipelas, salt rheum, pimples on the face, &c &c, together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R Van Buskirk Esq, one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the prevention of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the causes of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

☞Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have suggested it to one or two of our principal physicians, and recommended your Sarsaparilla. SETH TERRY.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured

Dr Townsend—Dear Sir. Nearly twenty years ago I took a violent cold, which settled on my lungs, and affected me severely, indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business. Within the last few years it has increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with my cough much bad matter, and for the last nine months previous to using your Sarsaparilla, had regular night sweats, indeed, my friends and myself supposed that I would die with the Consumption; but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla, I find my health restored. It relieved me gradually, and I am now enjoying much better health than I have before in 20 years. I had almost entirely lost my appetite, which is also returned. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. We became very much alarmed on her account. While using the medicine I gave her some of it, and it soon entirely relieved her as well as myself, and she is well now, and hearty as any child I ever saw. She was also full of little blotches, it took them away, and her skin is smooth and fair now, and I am satisfied she recovered her health from using your excellent medicine.

S W CONANT, 444 Bowery

GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of spirits," use a bottle or two of Dr Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of immense value to unmarried ladies.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

Dr Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. M D MOORE.

Albany, Aug 17, 1847 Cor. Grand and Lydius sts

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicines taken for female weakness and disease.

SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.— They were afflicted very severely with bad sores, have taken some four bottles, it took them away, for which I feel myself under deep obligation. Yours respectfully, ISAAC W CRAIN, 106 Wooster-st.

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from *scurf* and *dandruff*, and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind. Second—

From CONSTANT GUILLOU, Esq, Attorney at Law, and Notary Public Philadelphia.

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family and some of them personally, I have more than realized these favorable anticipations;—they are, what they profess to be, scientifically prepared and compounded. I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair-Restorative, Shaving Cream, Nymph Soap,* and in fact, all the popular preparations of Mr. Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.

CONSTANT GUILLOU."

From DANIEL J. DESMOND, Esq, Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.

"To Mr. JULES HAUEL.

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skilfully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste.— I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin; while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable.

"I have seen some of my friends who have used your Vegetable Liquid Hair-Dye; its effect is really a wonder. It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful, and none will detect the artificial colour, as it is so natural. Yours &c. DANIEL J. DESMOND.

Important to Parents.

WINER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS.

THIS remedy is safe in its operation and is more easily administered than any other.

THE GREATEST CAUSE OF DEATH among children is to be attributed to Worms. They give rise to numerous diseases, and are the more fatal because least suspected; were parents to give this subject more attention, and carefully observe the symptoms which indicate the existence of worms in bowels, *the lives of many children would no doubt be saved.* Some of the symptoms are as follows: the countenance is of a pale or leaden color, and suffused with occasional flushes, the eyes are heavy and dull, bad breath, itching in the nostrils the sleep is disturbed, the patient often awakening in great fright, and is liable to starting and grinding the teeth, the appetite is irregular being sometimes voracious and at other times feeble, occasional vomiting, &c

Winer's Canadian Vermifuge has acquired a reputation far exceeding that of any other medicine of the kind, and is daily increasing in popularity, wherever it is known and used, it is *universally approved*, it possesses properties which no other article of the kind does, is more prompt and efficient in its action and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing, who resides in Cleveland, Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms"; it may indeed be relied on with the utmost confidence, as it *has never been known to fail*; this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability, who all testify to its superior efficacy, and recommend it as a never failing remedy.

READ AND BE CONVINCED

We, the undersigned have frequently administered a medicine prepared by Mr John Winer of this town, designated "J Winer's Canadian Vermifuge," and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal.

Messrs J Winer & Co Sirs—My child of five years of age, was for more than two years severely afflicted with worms, during which time we gave her different medicines recommended, in such cases, but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are too often neglected until the foundation of the Specific Complaint is laid in the System. A Physician is then called, who administers a few Palliatives, but declares the disease incurable and the Patient is consigned to [illegible]. But why does he not [illegible]? Simply because he does not resort to the proper remedy, but [illegible] the mere ipse dixit of a Practice [illegible] rather than [illegible] table evidence of experience and the most undoubted testimony. On this basis is the only true one, the efficacy of

CURED,

Of Twenty Year's Standing!

CITY OF NEW YORK July 2 1847

This is to Certify that I Nelson Larrabee, of Jersey City, have been subject to a dry hacking cough, a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLY CONSUMPTIVE, neither the advice of [illegible] nor the many advertised remedies [illegible] have been of any permanent benefit and I was yielding hopelessly to the progress of the disease, when I was persuaded to try Dr F. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which all my symptoms have been removed, and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence.

In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate. NELSON LARRABEE

INFLAMMATION OF THE LUNGS

NEW YORK Jan 10 1847

Dr. VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing &c for many years past. About four months ago I took a severe cold which settled on my lungs. I was unable to attend to my business during the [illegible] that I thought I could not possibly [illegible] less I could get relief. The excessive [illegible] had reduced my whole body to a skeleton [illegible] rated white frothy mucous, in fact should I [illegible] full particulars of my case it would be almost incredible. I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I consented, when I had used [illegible] one week my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result is [illegible] I am restored to health, a blessing that I have not enjoyed for years until the present time. I [illegible] believe had I not made use of Dr V[illegible]'s Medicine, that I would be mouldering in the grave. Therefore I believe that I am doing nothing but justice, in stating the above facts [illegible] shew it to all the afflicted whom [illegible] administer to them. I shall be pleased [illegible] converse with the afflicted who may call on me.

DR. UPHAM'S

Vegetable Internal Remedy FOR THE PILES!

☞A Cure for Life Secured.☜

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach & Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY invented by Dr A Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this: it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent.* It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses at 8 1/3 cts per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and REMOVING THE CAUSE renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself [illegible] far superior to all others, in all diseases of an inflammatory character, with a determination [illegible] to any particular part or organ. In Inflammation of the Liver and Spleen, Inflammation and Ulceration of the Stomach Bowels, Kidneys, Bladder, in Inflammatory and Mercurial Rheumatism, it is the Best Medicine ever discovered.

IMPURITIES OF THE BLOOD

For all impurities of the Blood [illegible] imprudent use of Mercury or other [illegible] eases of the Skin, and Scrofulous Affections [illegible] where the blood is powerfully determined [illegible] producing dizziness and distress, DR UPHAM'S ELECTUARY is entirely [illegible]

TO MARRIED LADIES

Married Ladies are almost [illegible] subject to that painful and injurious disease, the Piles [illegible] quent inflammation of the Stomach [illegible] weakness of the back, flow of [illegible] The Electuary is perfectly safe for [illegible] and the most useful Cathartic [illegible] used, as it will not only remove [illegible] flammatory diseases, WITHOUT PAIN or IRRITATION but will ensure an easy time [illegible] and a sound constitution to the offspring.

CURE FOR LIFE GUARANTIED

The Electuary contains NO MINERAL MEDICINE, no Aloes, Colocynth, Gamboge, or other powerful irritating purgative. No fear of taking cold while under its influence, no change in diet [illegible] taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information [illegible] this Medicine may be had of Agents [illegible] D F BRADLEE, 130 Washington st Boston General Agent for the New England States.
